

4 Four Easy Steps...

To a fire in your Real Flame Fireplace!

1

Please read and observe all warnings printed on the **Real Flame** fuel label.

Begin by removing the paper label from the can of **Real Flame** fuel.

Open the can of **Real Flame** fuel with your **Magnetic Lid Opener** (or a screwdriver). Save the lid – you'll want to reuse any of the leftover fuel.

2

Place 1 to 3 cans of the **Real Flame** fuel into the fireplace behind the logs.

3

Light the **Real Flame** fuel with a fireplace lighter or a long stick fireplace match.

Now, with these four easy steps you're on your way to...

4

Enjoying a warm, cozy fire in minutes!
